PROJECT PROFILE

Project: Capalaba Water Treatment Plant Maintenance

Principal: *SEQ Water*

Location: *Capalaba Water Treatment Plant*

Overview of Project:
Fabricate and install new shade sail posts at Capalaba WTP.

Scope of Works:
Existing posts located on top of the tank walls on 2 x clarifier tanks at Capalaba WTP had broken out the concrete and were at risk of falling into the clarifiers.

Metal Maintenance fabricated and installed new Hot Dipped Galvanised posts form Practical Engineering`s design.

22 posts in total to be installed

Old posts were removed, and shade sail was connected to new post.
